Curriculum Vitæ

Anders Andersen

Last updated: March 27, 2015

Personal information

Born November 17, 1967, Vadsø, Norway

Nationality Norwegian

Languages Norwegian and english

Marital status Merete Saus is my live-in

Children Brynjar, born March 7, 1996 / Ingeborg, born February 10, 2007

Education Dr. Scient. (PhD), May 2002 / Graduate engineer, December 1991

Work address Department of Computer Science, UiT The Arctic University of Norway, NO-9037 Tromsø, Norway

Work phone +47 77 64 40 00 / +47 77 64 47 03 (office) / +47 77 64 45 80 (fax)

Home address P.G. Rodumsvei 12, NO-9011 Tromsø, Norway

Home phone +47 951 80 675 (mobile)

Email Anders.Andersen@uit.no

Web http://www.cs.uit.no/~aa/

Present occupation

Associate Professor Associate Professor at *Department of Computer Science, UiT The Arctic University of Norway*, from November 1999.

Chief scientist Chief scientist at Invenia AS, from 2010 (part time).

Education

Innovation managment BLU3713/BLU3714, BI Norwegian Business School, 2014–2015.

The Research Leader Program FLP8, University of Oslo, 2014.

Dr. Scient. (PhD) Dr. student at the University of Tromsø, 1995–2002.

Graduate engineer Study for graduate engineer in computer science at the University of Tromsø, 1987–1991.

Work experience

Teaching Temporarly engagement as part time lecturer at University of Nordland, Spring 2010 (Bodø), Autumn 2011 (Brønnøysund), and Spring 2012 (Bodø).

Chief Scientist Chief scientist at Invenia iLab AS, from 2009 to 2010 (part time).

Chief Scientist Chief scientist at Invenia AS, from 2006 to 2009 (part time).

Visiting reasearcher Visiting research at School of Computing and Communications, Lancaster University, UK, from August 2010 to Juli 2011.

Reasearcher Part time researcher at Northern Research Institute Tromsø AS (NORUT), from July 2010 to May 2011.

Visiting reasearcher Visiting researcher at Department of computer Science and Engineering, University of California, San Diego (UCSD) , from August 2005 to Juli 2006.

Partner Partner in *Invenia Innovation Ltd.*, from March 23, 2000, until December 30, 2008.

Teaching Temporarly engagement as part time lecturer at Hedmark College, spring 2002, autumn 2002, and spring 2003.

Researcher Part time researcher at *NORUT Information Technology Ltd.* 1999–2002.

Researcher/Dr. student Researcher/Dr. student at *NORUT Information Technology Ltd.* and *University of Tromsø* between February 1995 and November 1999.

Visiting reasearcher Visiting researcher at Distributed Multimedia Systems Research Group, Computing Department, Lancaster University, from February 1998 to February 1999.

Assistant professor Assistant professor (qualifying) at the computing department, Hedmark College from August 1993 to February 1995.

Partner Partner of TromsTech DA, 1993–1995.

Selected projects

PEARL This project aims to establish an European Training Network on PErsonalised information Access and RetrievaL (PEARL). Typical applications are for example personalized search and recommendation; publishing, broadcasting and advertising; e-learning; decision making. ITN application submitted Horizon 2020.

Snow SMSC The focus of the project is Secure Multi-party Statistical Computations in health environments. Medical research using health data is difficult because of the legal, security and privacy issues involved. Snow SMSC wants to demonstrate that secure multi-party statistical processing of health data can be implemented solving these issues.

NFC city The project's objective is to promote the development and use of services for information exchange, access, ticketing and payment through new applications of mobile and near-field communication (NFC) technologies. 2010-2014.

CSI Cloud Security Infrastructure (CSI) is an EUREKA Eurostars funded research project initiated by Invenia AS, and with the partners Sirrix AG (Germany) and Encap AS (Norway). 2013–2015.

Ensafer Ensafer enables users to securely store documents on the Ensafer storage server and to share these documents with other users providing strong information privacy. 2006– (at Invenia AS and Invenia iLab AS).

QuA The QuA project investigated how to develop complex real-time applications on a component architecture platform and learned through experimentation how dynamic QoS management and adaptation can be supported in general-purpose component architectures, 2002–2007.

Penne A distributed, secure, and highly resilient distributed storage systems based on modern cryptographic technology, 2004–2008.

6Net 6NET was a three-year European project to demonstrate that continued growth of the Internet can be met using new IPv6 technology, 2001–2005.

QoS Beans Quality of Service Management in Arctic Beans, Simula Research Lab, 2002.

Arctic Beans An adaptive application server and component model, Department of Computer Science, University of Tromsø, from January 2001.

OOPP *Reflective Middleware and Quality of Service Management*, Dr. project, NORUT IT/University of Tromsø, 1995–1999. Supervisor Frank Eliassen.

OpenORB *An Open ORB Architecture*, Distributed Multimedia Systems research group, Computing Department, Lancaster University, 1997–2001.

CORBAng *Next Generation CORBA*, Lancaster University, UNIK, University of Tromsø and University of Oslo, 1998.

ATOM *A concurrent object oriented programming model*, Distributed Multimedia Systems research group, Computing Department, Lancaster University, 1997.

Selected positions of trust

UiT The Arcic University of Norway Member of selection committee for an Post. Doc. position at Department of Computer Science, March 2015.

UiT The Arcic University of Norway Leader of PhD committee for Naoe Tatara 2014.

Department of Computer Science, University of Tromsø Member of board 2009–.

Troms Orieneteringskrets Member of board 2010–2012.

University of Tromsø Member of program board for teacher training in scientific subjects 2007-2010.

Department of Computer Science, University of Tromsø ODS research group leader 2006–2010.

Norwegian research council Expert reviewer research project (RFF) 2010.

Department of Computer Science, University of Tromsø Deputy leader 2009-2010.

Tromsø chess club youth Leader 2007–2010.

University of Tromsø, Faculty of Science and Technology Member of strategy committee for research and development 2009.

University of Tromsø, Faculty of Science and Technology Member of strategy committee for education 2009.

University of Tromsø Member of program board for telemedicine and e-health studies 2007–2009.

University of Tromsø, Faculty of Science and Technology Member of faculty research education board 2006–2009.

University of Tromsø, Faculty of Science and Technology Member of program board for master studies in technology 2006–2009.

University of Tromsø, Faculty of Science and Technology   Member of faculty education board 2006–2009.

University of Tromsø   Leader of PhD committee for Lars A Bongo 2008.

Invenia Innovation AS   Member of board 2000-2008.

BUL Tromsø orientering   Leader network/communication Norwegian national championship orienteering 2007.

NOKUT   Leader of committee evaluating 2 new master studies at "Høgskolen i Gjøvik" 2004.

University of Oslo   Member of PhD committee Ole-Christoffer Granmo 2004.

University of Tromsø   Leader of admission committee civil engineering study 2002.

Invenia Innovation AS   Member of board from the day of foundation, March 1999.

Norrøna Barnehage AS   Member of board from spring 1999.

CandiData   Executive member of CandiData from spring 1995. Leader between spring 1998 and spring 2000.

Selected publications

Dr. thesis   Anders Andersen, *OOPP, A Reflective Middleware Platform including Quality of Service Management*, Department of Computer Science, University of Tromsø, February 2002 (defended May 2002).

Diploma thesis   Anders Andersen, *A distributed weather application for airports* (in norwegian), Department of Computer Science, University of Tromsø, December 1991.
